

Hi! My name is Martha and I am the founder and owner of Primrose Bakery based in London in the UK. We bake a huge range of cupcakes and cakes everyday for our customers and you can have a look at our website and Instagram to see the kinds of things we do.

It sounds like you have a great project ahead of you to make a cake to celebrate the Platinum Jubilee of our amazing Queen Elizabeth II. I am sure Her Majesty loves cake and I am sure she would love to know all about your project.

Whatever you decide to bake I would recommend you choose something that will both taste and look good. Try and use the best ingredients you can. It doesn't need to be really complicated or expensive to make it look and taste good. The most important thing is to carefully read your recipe, weigh out your ingredients very precisely and make sure your oven is preheated. Follow the instructions in your recipe exactly.

When it is baked let the cake cool completely before you ice and decorate it. Be creative with your designs!

Take lots of pictures with your designs once you have finished – you are welcome to send me through some pictures to look at.

Wishing you all lots of luck with your baking and most importantly really enjoy what you do!

Kind regards

Martha
